[CCF launches Vital Signs 2021 Report](#)

We are delighted to share our new Vital Signs 2021 report.

A crucial part of CCF's approach is to understand the challenges and opportunities that exist within communities across Cambridgeshire. This is the purpose of Vital Signs, whose goal is to "take the pulse" of our community, highlighting challenges, priorities, and opportunities for action. We welcome feedback on the report. Ultimately, the value of Vital Signs is to inform our funding strategy, to inspire new philanthropists and to build conversations with people who are passionate about making a difference most effectively.
